

Installation of your classic luggage rack.

First remove the hoop on the bottom of the rack and rotate it through 180 degrees so it's on the top of the rack sticking up. Then attach the rubber feet to the bottom of the 4 legs. Your rack should look like this :

Next attach the fixing brackets as shown below. You will need a 10mm spanner to tighten the nuts, make sure the rack is tight on the boot lid. Please use the black matting supplied to protect the edge of your boot.
