SPRING

Portabagaglio applicabile sui bauli posteriori delle vetture. Trasformabile in portasci. Costruito in due versioni: in acciaio INOX ed in acciaio plastificato, con traverse portanti sezione 25 x 15. Larghezza regolabile. Fissaggio al cofano con appoggio direttamente sulla carrozzeria, ottenendo così una maggiore stabilità.

Porte-bagage applicable au capots postérieurs des voitures. Transformable en porte-ski. Il est construit en deux versions: en acier INOX et en acier plastifié, avec des barres portantes de section 25 x 15. Réglable en largeur. Fixation au capot par appui direct sur la carrosserie, ça permet d'obtenir une meilleure stabilité.

Luggage carrier adjustable on the back trunk of the cars. Changeable into ski carrier. With bearing cross bars section mm. 25 x 15, adjustable in width. Produced in two versions: in stainless steel or plastified anti-rust normal steel. Fitting to the trunk lid and on the car body being so more steady.
